

Thank you for participating to Rainbow training and implementing what you have learned!

In order to understand and evaluate the implementation phase please describe in one page your experience on classroom implementations with students. From your testimonial we would like to find out about:

- changes/adaptations you made (if any) on the Rainbow resources/materials
- students' feedback, results
- difficulties encountered (if any) regarding engaging the students, collaboration with/ between the students, timing, resources/materials, support from school/Rainbow project staff etc.
- how did you managed these difficulties/problems
- any other comments you wish to share with us.

In case you made more than one implementation, please add the information referring the students and activity implemented, for each implementation done.

Thank you for your feedback!

Testimonial on implementations

Name: _____ Schools where the implementation took place:
_____ Number of implementations: _____
Number of students (who participated to the activity): _____ Students age:

Rainbow activity (resources/materials) used:
